## **Studio Premoli Silva – Milano Architettura**

The Studio was founded in 1973 in Milan, Italy.

The current owner of the Studio is the Architect Michele Premoli Silva.

The firm operates in all areas of architectural, interior design, communication and construction management. The Studio is capable of managing highly complex projects all over the world thanks to its flexible structure, organized to cover all necessary tasks. It is mainly qualified in: office buildings, four/five star hotels, private villas, residential buildings, fashion stores, large restaurants, shopping centers, art galleries, urban plans, schools, universities, auditorium, etc...

Among its current tasks, the Studio has relevant ongoing projects in Italy, Qatar, Saudi Arabia, Africa, including the construction of the biggest five star hotel in Douala (Cameroon).

**The Studio** guarantees the care at all stages of the project development, from the project evaluation to the executive plan, from the bill of quantity to the realization of tenders for supplies; from the artistic direction to the operational direction, up to assisting in the final inspection checks.

**The Studio** is able to involve and coordinate all major Italian and European Companies, ensuring all customers the best quality.

"We believe that we need to develop our projects in an extremely contemporary way - especially in relation to technologies - but at the same time that it is essential for us to safeguard the specificities and the tradition of a Country. This is why our projects are innovative, because they are tied to the identity of their location making them different and special".
